

# Recruiting New Board Members

# **Recruiting New Board Members**

Regional Board Members are an essential part of the MMASC organization. MMASC has a tradition of attracting involved full MMASC members to make that step into a leadership role. The recruitment of Board Members is essential for allowing innovation and fresh perspectives to grow the organization and the MMASC brand. Below are the steps to take for the recruitment of a Board Member.

### **Board Identifies and Agrees to Add New Member**

(either through outreach or the member requests to join the region board and region board agrees)

## **Region Board Notifies Director of Programming of Addition**

Forward a filled-out Letter of Commitment from the new member to the Director of Programming with confirmation that the region board approves

### **Director of Programming Confirms Eligibility**

If the new member does not meet minimum board member qualifications, the Director of Programming will seek approval from the Executive Board to override qualifications.

Member is confirmed.
